

Targeted Occupations List 2022-2023

The Targeted Occupations List is developed by Workforce Solutions Coastal Bend (WFSCB) to identify the most effective use of local workforce development resources. Sources of information for the target list are local area employers, economic development entities, chambers of commerce, community partners, Texas Workforce Commission labor market information specific to the Coastal Bend region, and knowledge gained from continuous contact with the above sources.

Significant occupational factors include current and projected employment in the occupation, a self-sufficiency wage, and specific vocational preparation time for the occupation, usually less than two years. Employment demand for the occupation offers reasonable expectation of employment following vocational preparation. The list does not include other higher paying jobs for which longer vocational preparation is required.

The range in the listed training period is only an estimate and, in some cases, may represent classroom training, on-the-job training or a combination of both. The typical limit of vocational training funded by WFSCB is less than two years. Occasionally WFSCB may fund the last year or two of a longer program with the understanding that the trainee is job ready at the end of the funded training.

WFSCB uses this list for approved training provided to workforce program-eligible participants. Job seekers must visit WFSCB Career Centers to determine eligibility for training through Workforce Solutions Coastal Bend. Eligibility is not an entitlement to funding. Training providers must apply to the State's Eligible Training Provider System (ETPS) to provide training services funded by WFSCB for the listed occupations.

When funds are available for incumbent worker or on-the-job training, employers may apply to WFSCB for such training. Although incumbent worker and on-the-job training do not require the occupation to be listed on the targeted occupations list, priority will be given to employer applications for training in the listed occupations. Funded on-the-job training wage reimbursement is limited to one to three months due to the expense of the training. Incumbent worker training does not include employee wages and may be longer than three months.

Certain occupations listed may show an entry level wage less than \$12.00 per hour, but are in high demand in the region. Training for these positions should be provided only as part of a career ladder. Training for elementary school teachers does not include child care workers. Child Development Associate training may be available through WFSCB Child Care Program funding.

Emerging Technology occupations related to wind energy, environmental technology, alternative fuels, alternative product uses, and reuses has been included on the list. This category of occupations is designated in anticipation of new and evolving commercial technologies. Occupations must require more than simple demonstration training and pay at least \$12/hour to be eligible for workforce training funds.
